Anisa Darr

Director of Resources at London Borough of Barnet

London Borough of Barnet have moved away from the traditional model of providing services 'in house' with the aim of securing the best deal for our residents. This commissioning model allows us to be more flexible in the approach we take to providing the services our residents need and ensures we get the best value for money. Capita, as our strategic delivery partner for all our back office and customer services, is pivotal to this model and our relationship with them is vital in ensuring support to the organisation and borough.

As a Capita employee you will be working closely with the council to understand our priorities and supporting us through this challenging time. I hope these unique opportunities interest you and you're successful in your application.
